- **Ceiling Lights strips**

## Andromeda—Strip Light

The Andromeda is an innovative product which incorporates the latest LUXEON REBEL LEDS generating outstanding light output to rival that of conventional fluorescent lighting.

This unit can be used virtually anywhere where a good quality, high light output is required. It can be fixed to most surfaces or suspended from ceilings using the unique tilt and lock bracket system supplied.

These fittings contain integrated drivers and come complete with a 12V DC transformer.

## Andromeda Gullwing —Strip Light

The Andromeda Gullwing also incorporates the latest LUXEON REBEL LEDS.

## Octavia Strip Light

Specifically designed for creating stunning wall wash effects using quality LEDs that produce an even spread of light over a large area (up to 12m in height).

The OCTAVIA Profile is available in 2 sizes and 6 colours including RGB along with a range of optics giving different light beams.

This unit can be mounted to walls, floors or ceilings using a unique bracketing system that offers a tilt or a fixed locking function.

The Octavia is also available in IP67 rated options & is suitable for outdoor use.

## Orion Mini Profile Strip Light

The Orion is the latest innovative design incorporating the new LUXEON REBEL LEDS.

**Andromeda Strip Light  
& Gullwing Strip Light**

Finished in a bright polished aluminium, the ORION MINI PROFILE is available in 6 standard sizes (120mm, 220mm, 320mm, 420mm, 520mm & 1020mm) and 6 colours (warm & cool white, red, blue, green & amber). IP67, RGB and non standard lengths are available on request.

The ORION MINI PROFILE is suitable for a variety of lighting applications including under cabinet lighting, script lighting, retail display lighting, refrigeration lighting, cove lighting, fluorescent replacement, inspection lighting and artwork illumination.

The ORION MINI PROFILE includes the latest on-board driver technology allowing it to be run off 12V DC transformer making it ideal for mobile applications.

**Orion  
Mini Profile**

**Octavia  
Strip Light**

These halogen replacement & AR111 LEDs will bring a warmth to the heart of any room.

In addition to more effective lighting than provided by other lights they immediately offer major cost savings over halogen lights with running costs that can be 80% lower.

As with all Surelight LED systems these are eco-friendly and low maintenance.

RGB and pastel colours provide further options if mood or feature effect lighting is needed.

Typical uses for down-lighters include:

- **Retail Display Lighting**
- **Offices**
- **Workshops**
- **Residential**
- **Hotel & Bars**
- **Clubs**

# Halogen Replacement LEDs - Down-Lighters

## 6 LED Down-Lighter

The 6 LED Down-Lighter is a compact LED fitting suited to down-lighting applications.

It has been designed with excellent thermal properties and efficiency in mind. Used with the correct driver this light will meet part L requirements.

The 6 LED Down-Lighter has a built-in tilting gimble to give a wide range of adjustment.

A range of anodised finishes are also available upon request.

## Halogen Replacement Lamp—K2MR16

The K2MR16 RETROFIT has been developed to offer the end user an LED-based solution to the standard halogen dichroic lamp.

The K2MR16 RETROFIT has been designed to fit directly into any MR16 fitting.

As well as having significant energy saving benefits the K2MR16 RETROFIT is virtually maintenance-free having a standard life of 50,000 hours.

The unit is available in a range of single colours offering limitless combinations of desired effects.

Supplied complete with driver.

## AR111 Lamps

The AR111 Retrofit product is a compact LED fitting suited to down-lighting applications.

It is available in an IP67 option for outdoor use upon request.

Typical applications for the AR111 light include retail display lighting, offices, workshops, residential, hotels, bar & club environments.

The AR111 Retrofit is available in various single colours, including warm, neutral and cool white. An RGB version is also available.
